Attention: Business Editors

FARIS MACHINERY COMPANY ACQUIRES BOYLE EQUIPMENT COMPANY

Merger extends Leading Contractor and Municipality Offering to Sewer Services

Commerce City, CO - Aug. 1, 2011 - Faris Machinery Company (www.farismachinery.com)

Faris Machinery Company (Faris) is pleased to announce that it has acquired the assets of Boyle Equipment Company (Boyle), which will continue to operate under the Boyle name. For over 20 years, Colorado has recognized Boyle Equipment Company as THE source for sewer inspection and maintenance products and services. This commitment to the sewer services industry will be further strengthened by the resources of Faris Machinery.

Together, Faris and Boyle are uniquely positioned to provide Colorado municipalities and contractors with the most comprehensive suite of equipment and services for the construction, road building, refuse, sewer, and oil/gas industries. They share a commitment to product knowledge, training, and service, ensuring that mission critical objectives get met.

Faris and Boyle already share the same geographic territory and many of the same customers. We represent a common manufacturer, Federal Signal Corporation, maker of Vactor sewer cleaning equipment and Elgin street sweepers, which are leaders in their respective markets. We will continue to sell and support the products of Cues Inc., the world's largest manufacturer of CCTV Inspection equipment, which, like Elgin & Vactor, is built in America.

What does this mean for you?

- A broader and deeper range of products to meet your business needs.
- A commitment to service & training, reducing your costs and down-time.
- Owner involvement and stability – over 80 years combined in Colorado – for a long-term, financially strong focus on growth.

About Faris Machinery Company

Faris Machinery Company has been a solutions provider for municipalities and the construction, refuse, and road maintenance industries since 1953.

In partnership with our suppliers, we combine quality machinery with superior parts, service, rental, and sales support to make Faris Machinery the supplier of choice in Colorado for over 55 years.

Faris, a family-owned Colorado company, with three branches, is committed to doing what it takes to provide complete product satisfaction.

The Parts Department maintains inventories at levels necessary to provide customers with off-the-shelf parts availability. OEM repair parts are warehoused at each facility to ensure that you have ready access to items required to keep projects on track and on schedule.

The Service Department has 10 factory-trained mechanics and 6 fully-equipped field service trucks deployed throughout our 3 branches. Our technicians are trained specialists, and we make continuous efforts to improve their expertise.

The Rentals fleet at our branch locations is extensive. Equipment is low hour and well maintained. Rentals range from dewatering pumps to asphalt paving and compaction

products. Our factory trained jobsite sales people help you get the right machine on the job.

Faris is the exclusive Colorado dealer for: Carlson, Doosan, Elgin, Etnyre, Gehl, Gorman-Rupp, Gradall, Labrie, Mauldin, Midland, Palfinger, Scorpion, Superior Broom, Volvo (Road Machinery Div), and Wacker Neuson.

About Boyle Equipment Company

Bryan Boyle opened Boyle Equipment Company (BEC) in 1988 from an office in his Carbondale, CO home. The company mission of offering superior local support for all product lines led to the steady growth of Boyle Equipment.

A major turning point for BEC was in 1990 when it was awarded distribution rights for CO and WY from Vactor Manufacturing, the largest manufacturer of sewer and storm drain cleaning equipment in the world. The addition of Vactor to a steadily growing product line brought dramatic growth and led to an increasing commitment to offer the best local support for the premiere manufacturer in the industry.

BEC has grown and is now the largest facility in CO devoted to servicing sewer and storm drain cleaning and inspection equipment. BEC has the parts and service you need to stay up and running – whatever the situation. Services include:

- Sewer Cleaning Equipment
- Video Inspection (CCTV) Equipment
- Hydro Excavation Equipment
- Used/Reconditioned Sewer Cleaning Equipment

BEC's "best possible products" line-up features Vactor Manufacturing, Cues, Sewer Equipment Company of America, Duke's Root Control, NozzTeq, StoneAge, and Cherne..

For more information on Boyle Equipment Company, visit www.BoyleEquipment.com or call 800-780-1360.
